AMERICAN AND BRITISH CUTLERY.—The Sheffield steel manufacturers seem to be in some trepidation as to whether the world's homage to Sheffield is as the headquarters of the steel interest is not being shaken. This country seems to be a strong competitor for the honor. A Sheffield newspaper mentions a rumor of the "removal of the Sheffield steel business to the United States," and adds that more than one of the leading Sheffield steel establishments are engaged or interested in Pittsburgh Philadelphia. The inciting cause of this great change appears in the important fact mentioned that Bilbao (Spanish) ore is being imported into the United States and made into steel, at a much lower rate than Sheffield firms can sell it.—*Philadelphia Ledger*.

While a party was boring for water near Chatham, Canada, a vein of gas was struck at a depth of 119 feet. The gas rushed out so furiously that it threw stones to the height of 175 feet, and igniting, burned down the hotel and severely injured three persons.

Fifty car loads of tea passed through Omaha Friday night week from China, via San Francisco, for the East.

TAKE WORM. Take Worm, removed in a few hours with harmless Vegetable Medicine. Never asked until the entire worm, with gall passes. Refer those afflicted to residents of the city whom I have cured, that had been unsuccessfully treated at the Jefferson Medical College, on Tenth street, taken in various surplices, the so-called specialists and all known remedies. Dr. E. F. Kunkel, No. 100, North Street, Philadelphia.

The Doctor has been in business for over 20 years, and is perfectly reliable. Call and see. Advice free. Removed tapeworm from a child six years old, measuring 20 feet. At his office can be seen specimens, some of them over forty feet in length, which have been removed in less than three hours by taking one dose of his medicine. Dr. Kunkel's treatment is simple, safe and perfectly reliable, and no fee until the worm is found, price \$1 a bottle. JOHN Q. KELLOGG, 18th Street, New York.
